## POWER BANKS

re-fuel® power and audio products are built to complement an action-packed lifestyle. As a leader in the power accessories market, re-fuel is the brand trusted and relied on to supply the battery life expected – and needed – to take devices the extra mile. Every item is fully vetted to make sure that it meets the performance standards and quality our customers come to expect from the re-fuel brand. With re-fuel power banks, athletes and athletes at heart can go the distance without stopping to recharge.

## POWER BANKS

### **The Adventurer** 10400mAh

For the adrenaline junkie who makes home videos of their best runs, greatest adventures and longest hikes. Charge up to two devices simultaneously. This battery pack will keep all your gear running all day long.

### **Go Charger power bank and GoPro® battery recharger**

For the GoPro enthusiast, this all-in-one power bank lets you charge up to two GoPro Hero4 batteries at the same time. It also comes with a USB port to charge your phone while charging your GoPro Hero4 batteries. Charge your GoPro without removing your battery by plugging it directly into the power bank's USB port.

### **The Weekender** 5200mAh

Made for the weekend warrior, The Weekender 5200mAh power bank will keep your phone up and running for those long trips away from home.

### **Grab N' Go family pack**

Share the power with friends and family. The Grab N Go comes with three 2600mAh power banks and a charging dock. Recharge your phone and stay connected all day long.

## THE FASTEST WAY TO CHARGE YOUR DEVICES

Mizco products with *InstaSense* adjust the flow of electricity to deliver the fastest and safest charge to connected devices. Charging products with *InstaSense* can recognize how much power your device draws and can automatically deliver exactly how much your smartphone or tablet needs to charge rapidly and safely.

Each Digipower product with *InstaSense* has built-in advanced protection to safeguard against overcharging and short-circuiting.

### USB Wall & Car Chargers

*Take the guesswork out of compatibility!*

Digipower Dual Port USB Wall & Car Chargers provide the fastest charge possible and are compatible with all mobile devices. Featuring 2.4A or 3.4A models and extra-long micro USB and Lightning™ cables.

### Four-Port USB Wall & Car Travel Chargers

*Charge everything you need in one place!*

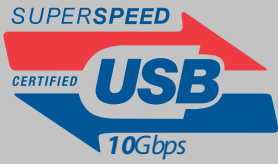

The Digipower Four-Port USB wall and car chargers are compatible with all mobile devices.

### Charge & Sync Power Cables

*High-performance cables for superior charging*

Digipower Charge & Sync Cables offer features such as tangle-free cables, extra-long cords, heavy gauge wires, and multiple, simultaneous device-charging capability.

USB Type-C is rapidly becoming the new power and connectivity standard. However, it is not just a different type of charging port – it's a universal standard that works for all devices, including smartphones, tablets, laptops, and more.

## TYPE-C™

Digipower cables are some of the first in the industry to be certified by the USB Implementers Forum, guaranteeing superior construction and maximum performance. Digipower Type-C charging accessories are precisely manufactured to meet USB-IF specifications and strict testing requirements.

## WI-FI SECURITY CAMERA

The Digipower Smart Home series allows you to stay connected to your home from anywhere in the world.

Products in the Digipower smart home line include security cameras, motion sensors, smart plugs, window contacts, and wi-fi gateways, all operated through the Digipower Smart Home app.
